

THE INTERNATIONAL DIMENSION: EXTRA-CURRICULAR

International developments within and beyond the curriculum are led by the international co-ordinators within each school, supported by the senior lead.

There is a cross-subject International Working Group at Comberton, but also smaller groups in other schools to ensure that school-specific projects have appropriate expertise and leadership attached to them.

Projects are many and varied, but have the aim of enriching the educational opportunities for all of our students, and enabling them to develop their global citizenship. A few, specific examples from each school are:
